19 YEAR OLD BOY SENTENCED TO BE HANGED; CALGARY COURT

Otis Dortch Found Guilty Murder of Charles Kelly

EXECUTION TO TAKE PLACE ON APRIL 11

"I Will Face Death as Bravely as I Can," He Says

CALGARY, Jan. 23.—Otis Dortch, 19 years old, was sentenced to death for the murder of Charles Howard Kelly, by Mr. Justice Walsh, at the conclusion of a two-day trial here Tuesday night. Dortch is the youngest murderer ever to receive the death sentence in Alberta. The execution is to take place at Letwin on April 11, 1923. The charge of murder preferred against Otis Dortch, his younger brother, was withdrawn.

Statement in Court

"I will face my death as bravely as I can," Dortch declared upon sentence.

In response to the judge's remark as to why he was not pleading insanity, Dortch said: "I don't believe the jury has given me the life benefit and anyway, I don't want anything of anybody else in this thing."

The jury retired at 8:50 p.m., returning at 9:10 p.m. after a deliberation of only twenty minutes. Mr. Justice Walsh, before sentencing the boy, said that there existed a possibility of commutation if the death sentence was not pronounced, but that he was not inclined to make any recommendation on the subject.

Infatuation the Cause

Infatuation for Mrs. C. J. Kelly, wife of the slain man, a woman twice his age, was the motive which prompted Dortch to commit the crime, it was held by the prosecution.

23 top in his sworn confession openly declared his love for the woman, saying that he was jealous of her husband and that she had married him for money. Kelly died.

Dortch confessed that he shot and killed Kelly.

U.S. SENATE WILL HAVE PROGRAM OF MANY CRITICISMS

Secretary Hughes to Be Made But Because of His Foreign Attitude

WASHINGTON, Jan. 23.—(By Canadian Press)—Increase in criticism of the state department's foreign policy may be expected according to senators today. The attack made yesterday by Senator Borah, in which it was charged the government takes a program rendering French occupation liable to the navy's loss of the ship, other senators are expected to follow it up both in the foreign relations committee and in the senate.

ELLEVATOR BURNS

MONTREAL, Jan. 23.—Fire ignited in a grain elevator here today, causing a loss of \$14,000, it was reported. The fire broke out in a grain elevator at St. Lawrence, Quebec, and caused damage estimated at \$14,000.

GREAT BRITAIN IS NOW BEST CUSTOMER FOR CANADA GOODS

OTTAWA, Jan. 23.—Great Britain has been the best customer for Canadian goods for the past year. Figures just issued by the department of commerce show that exports to the United Kingdom in 1922 were worth \$1,444,885, the highest figure in the history of the trade. Exports to the United States followed, with a total value of \$1,244,147. Exports to the United States in 1922 were worth \$1,244,147, the highest figure in the history of the trade. Exports to the United States in 1922 were worth \$1,244,147, the highest figure in the history of the trade.

European Trouble Not Helped Result of Turk Refusal

Turkey Refuses to Put the Mosul Dispute to League of Nations—Counter Refusal by Britain

LAUSANNE, Jan. 23.—Unsettled as is the general European situation at the present moment, it suddenly took a more menacing turn this evening owing to official developments in the Near Eastern conference. Turkey refused to accept the British proposal to refer the Mosul dispute to the League of Nations for settlement and Great Britain declined to accede to Turkish counter-suggestions that the question be referred to a plenary session in the nearest district.

Will Not Enter

Lord Curzon then declared that the foreign secretary of the British empire would take the responsibility of addressing a letter to the council of the League of Nations stating that the British government would be willing to discuss the matter but that it was not willing to accept the Turkish proposal to refer the Mosul dispute to the League of Nations for settlement.

WESTERN DAIRY CONVENTION NOW IN ANNUAL SESSION AT CALGARY

REVIEW YEAR'S WORK OF THE PRODUCTIONS

Producers' Section Has Done Some Real Work During Period Just Ending

During the past year the producers' section of the Alberta Dairy Association has been most active, and as the interest in dairy operations all over the province has increased, it is natural that the producers have become tremendously anxious to take with the organization that has served the purposes and efforts along these lines.

At the present time there are four associations which are working along milk and cream lines, viz. Teesbury, Olds, Lethbridge and Edmonton. In addition there are about 125 standing committees belonging to various U.F.A. localities. N. S. Smith, M.L.A., the president, and N. H. Clark, the secretary, have both been in much demand as speakers at a number of public and private occasions. In their addresses, the advocates of having all the producers organized so that the producers could unite and the best results from their efforts.

It is going that there is a great demand for an improved type of dairy animal, and this is being available on account of the high prices demanded by the owners, the herds have not increased to the extent that they would otherwise have done.

Last January N. S. Smith attended the meeting of the national dairy executive in Winnipeg, when the conference centered around the exportation of dairy products. The meeting was held in the city of Winnipeg, and the dairy products were the main topic of the conference.

In February, Norman Clark, the secretary, was called to Ottawa, to a conference at which were represented all over Canada, including manufacturers, government officials and producers.

The chief of the federal grading of butter and cheese was viewed from all angles, and it was decided that the time had arrived when it was absolutely necessary to grade both of these dairy products and establish standards if our export market is to be increased and maintained.

An executive meeting was held in Red Deer in June, at which all the members were present with the exception of the vice-president.

The matter to the fore was the exportation of the three-quarter cream can, and the result was that railway companies were asked to make the rate similar to that enjoyed by the shippers in the east.

Success later on crowned their efforts, and the achievement was made toward the end of 1922 that the companies had agreed to the request.

The third and last meeting of the year was held in Calgary in November, when the work for the convention was outlined and a draft of the program made. The meeting was a joint one with the executive of the manufacturers and plans were made for the big convention.

Cheese Scoring Contest for 1923 Something New

1. The contest will cover six months from May to October inclusive.
2. The samples to full or half and Cheddar cheese must be made between the 1st and 15th of each month and shipped by express (charges collect) to the Dairy and Cold Storage Commissioner, care of Banquet Cold Storage, Edmonton, to arrive on or before the 20th of each month.
3. The provincial dairy authorities will be asked to select the cheese factories for the contest each month according to the following allotment:
 - Prince Edward Island—1 factory each month.
 - New Brunswick—1 factory each month.
 - Ontario—4 factories each month.
 - Quebec—4 factories each month.
 - Manitoba—1 factory each month.
 - Saskatchewan—1 factory each month.
 - Alberta—1 factory each month.
 - British Columbia—1 factory each month.

9:00 p.m.—Dancing.

A Special Meeting will be called some time during the convention by D'Arcy Scott and the Western Executive of the National Dairy Council.

MANTOBA HAS MANY SHIPPERS

More than half of the farmers in Manitoba are producing and shipping cream according to figures which have been compiled by the Department of Immigration and Colonization. The 15,000 farmers in the province there are 15,000 shippers.

Before the war Manitoba had to import butter, receipts for the year 1914 being 78 cars, while the year just past she exported 200 cars. The provincial authorities are very proud of the showing which is made of the eastern shore this fall.

BURNS FACTORY FOR HARDISTY

Farmers and business men of the Hardisty district are considering entering into an agreement with P. Burns & company regarding the establishment of a cheese factory there, says a correspondent. Hardisty is to put up the building, which is to be rented by P. Burns for five years with an option to buy at the end of that time. About 1,500 worth of shares have already been subscribed by the business men of the town. The farmers, in addition to this, are subscribing shares to the building.

This is one of the best dairy districts of the province, and everyone seems ready to cooperate in the enterprise.

Dairymen's Association Officers

President—P. Pallesen, Calgary.
Vice-President—Norman S. Clarke, Didsbury.
Secretary-Treasurer—E. T. Love, Edmonton.

Transportation—G. W. Grant, R. Lewin, F. C. Brooke, H. Skippy.

CREAM PRODUCERS

Should Put up Ice NOW to take care of Summer's
Cream Production

The Edmonton City Dairy is anxious to MAINTAIN THE HIGH QUALITY OF E. C. D. BUTTER, as is indicated by the large number of TROPHIES and AWARDS we have received, so as to be able not only to SET THE PACE IN THE HOME MARKET, but also to offer for shipment, in CARLOAD LOTS, butter suitable for EXPORT to the MOST PARTICULAR MARKETS OF THE WORLD, in competition with the best butter ANY COUNTRY can produce.

That is why we have always ENDORSED, on every possible occasion, EVERY MOVEMENT LEADING TO THE DEVELOPMENT OF THE BUTTER STANDARD, and it is the reason why we advocate a continuance of the present grading legislation in Alberta.

The cream producers themselves can materially ASSIST THIS MOVEMENT by putting up at the present time SUFFICIENT ICE to take care of their cream during the coming season. This ice will enable them to keep their cream in good condition, so that they will have the HIGHEST QUALITY OF CREAM and secure the HIGHEST PRICE FOR IT, and we in turn will thereby be enabled to continue the manufacture of the HIGHEST-GRADE BUTTER.
